

Research Assistant / Hilfsassistent/in 6-8 hours per week / 20 %

The new Chair of Health Economics, under the direction of [Prof. Dr. Armando Meier](#), at the Faculty of Business and Economics of the University of Basel invites applications for a student research assistant (HiWi) position with a 20% appointment (6-8 hours per week). The successful applicant will work in a research group working on topics in health, labor, and behavioral economics.

Start date: 1 August 2024, or as agreed

Your position

You will become part of an international research group in an English-speaking environment and are welcome to interact closely with members of the new [Basel Center for Health Economics](#) (BCHE).

Your tasks include research support (e.g., literature search, data preparation, data analyses), teaching support (e.g., updating references and slides, providing feedback), and administrative support (e.g., help with website, reports, workshop organization).

Your profile

- Bachelor or Master student at the University of Basel or a university closeby
- Good grades and high willingness to attain good statistics/econometrics skills, first experience with STATA, Python or R is an advantage
- Passion and curiosity about working on economics topics and with data

What we offer

You get the opportunity to contribute to research and teaching projects in a dynamic, innovative scientific working environment and the opportunity to interact with internationally renowned scientists from different disciplines. You will be part of a research-oriented team with a collaborative and supportive atmosphere. We offer on-the-job training of research and teaching skills and first insights into a research career with competitive pay.

Application / Contact

Are you interested? Then we look forward to your complete online application. Applications are reviewed on a rolling basis until the position is filled.

Submitted documents (pdf) include:

- up-to-date CV
- copies of university diplomas and transcripts of academic records including grades for bachelors and masters (as available)
- a letter of motivation
- if available: a sample of academic writing such as a seminar paper, essay, or research proposal
